

## Emanage Package's for 1JZ & 2JZ powered vehicles now available

Contributed by Cihan Aday

Complete supply, fit and tune Emanage Ultimate and Emanage Blue packages for single and twin turbo 1JZ and 2JZ powered vehicles are now available. Packages for the VVT-I variants of these two engines are being developed and will be available within the next few weeks.

For more information about the services and hardware included, please click the 'Read More' button below. For related pricing or application specific information, please email me personally : [cihan.jzz30@gmail.com](mailto:cihan.jzz30@gmail.com)

Thanks,  
Cihan.

The Emanage Blue package includes;

- Emanage Blue main unit (latest revision)
- All available main unit harnesses (main, ignition, injector)
- Installation of the unit to vehicle (solder, shrink wrap)
- Setup of unit and vehicle specific parameters
- 3hours tuning on road or dynamometer
- Software CD with latest updates and tuning software

The Emanage Ultimate package includes;

- Emanage Ultimate main unit (latest revision)
- All available main unit harnesses (main, ignition, full injector)
- Installation of the main unit to the vehicle (solder, shrink wrap)
- Setup of related sensors, injector parameters & vehicles specific parameters
- 3hours tuning on road or dynamometer
- Software CD with latest updates and tuning software
- Required USB interfacing cable

For high boost applications it is important to use an upgraded MAP sensor. The recommended unit is the Greddy 3BAR Pressure Sensor with a harness kit. This can be supplied as part of your package deal at a competitive price :)
